

Low Sperm Amendment Price Sheet (Category III)

(Prices are subject to change without notice)

The purpose of the Low Sperm Amendment is to allow certain patients a chance to participate in the Fertility Cost Warranty Programs (FCWP) even though the male patient has less than 100,000 motile sperm in his semen, a condition which would otherwise disqualify them from participation in the programs. **Sperm acquired via Micro-Tese do not qualify for Warranty Programs.**

Based on the severity of the male factor, patients will fall into 1 of 3 categories:

- I. Male has < 100,000 sperm (due to testes not functioning well)
- II. Male has 0 sperm (due to testicular failure)
- III. Male has 0 sperm (due to obstructive azoospermia, most commonly resulting from previous vasectomy)

Category III: \$1,000 will be added to the total cost of the warranty program, all of which goes towards the refundable portion.*

Additional screening costs, such as a comprehensive evaluation by a urologist, as well as surgical costs may be incurred.

*Table below includes the \$1,000 increase

<u>FERTILITY COST WARRANTY PROGRAMS</u>	<u>TOTAL</u>	<u>Refundable</u>	<u>Non-Refundable</u>
< 35 Warranty Program (no monitoring)	\$20,240	\$16,080	\$4,160
